

Welcome back to another term. Thank you for all your support last half term. Working in partnership together, we will be able to support the children to achieve great things. We will help them build back better!

This half term we will be looking at inspirational people.

In English, we will be looking at creating our own fact files based around an inspirational person. We will be thinking about how to layout our fact files in an appropriate way as well as writing factually.

In Maths, we will continue looking at subtraction. Thinking about different strategies we can use to support our understanding. As well as looking at money or shape and consolidating our place value knowledge.

In Science, we will be continuing to develop our knowledge and understanding of animals and their habitats.

In our other subjects we will be looking at conducting a field study of Yoxford and the area around the school, developing our coding skills and learning how to play different instruments.

Reminder:

Please remember to read regularly with your child and help develop a love of reading. Also, water bottles are to be taken home at the end of each school day, washed and re-filled and brought into school each day.

Google Classroom - We will be uploading many different activities/resources to support that can be completed at home. These will include consolidation activities based on what was taught in school and additional activities to support filling any gaps that have occurred. If you need your password resetting, let me know and we can sort this out.

We have been working hard to develop our skills based curriculum. Please check the website to see more information as it will all be uploaded there.

Dates for the diary:

Every Friday AM - PE

Every Friday - Celebration Assembly and Scouts

Friday 13 November - Children in Need

Thursday 17 December - Christmas Dinner Day

Friday 18 December - Last day of term

Tuesday 5 January 2021 - Children return to school
